FinSight

Financial clarity for small businesses.

AI-powered expense optimisation that helps you understand cash flow, reduce waste, and act faster.

Upload your data. Get instant insights.

UM Hackathon 2026 · Powered by GLM-4

THE PROBLEM

Most small businesses manage their money in the dark.

82%

of small businesses fail due to poor cash flow management

47h

per month spent on manual bookkeeping and financial admin

$0

access to a financial advisor for most early-stage businesses

THE SOLUTION

One platform. Three jobs. Zero confusion.

Upload your transactions — FinSight does the rest.

PAGE 01

Cashflow

Here's what happened. Auto-categorise transactions, see income, expenses, and profit at a glance.

PAGE 02

Analytics

Here's where you're heading. GLM-4 forecasts next month and warns you before trends turn dangerous.

PAGE 03

AI Assistant

Here's what to do about it. Chat with your data, ask real questions, generate a structured report.

FinSight

PAGE 01 · CASHFLOW

Here's what happened.

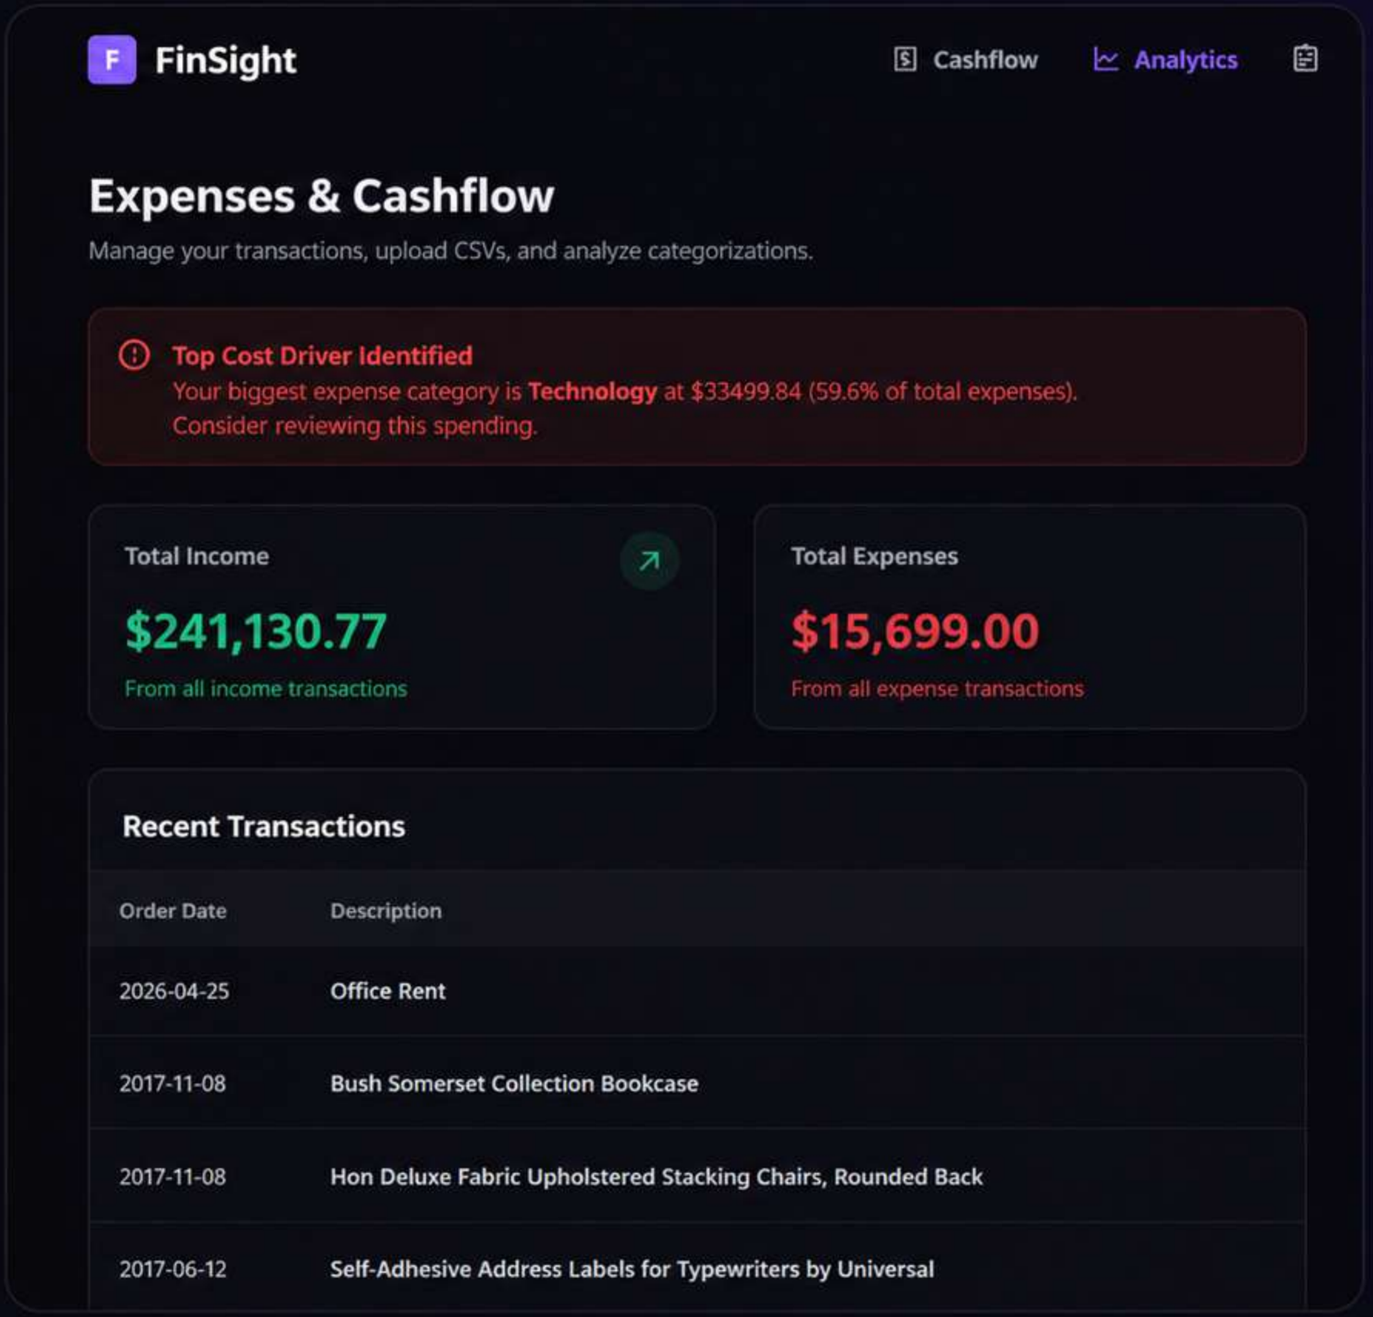
Instant financial visibility

Upload a CSV — GLM reads and categorises every transaction automatically

Top cost driver alert — Surface the biggest expense before you go looking

Total Income, Expenses & Net Profit — All your key numbers in one clear view

Edit categories — Inline corrections that learn your business



PAGE 02 · ANALYTICS

Here's where you're heading.

GLM-4 powered forecasting

- **Revenue vs Expenses** — charted over 6 months of history
- **Next month forecast** — predicted revenue, expenses, and profit
- **Scenario warnings** — "if marketing keeps growing, you'll be at a loss by July"
- **Category breakdown** — spot which spend is growing month-on-month

PAGE 03 · AI ASSISTANT

Here’s what to do about it.

Your on-demand financial advisor
